GF12-7E  12V6.0Ah/C20

GASTON GT
range is the most common standard and the first generation delicate product which is designed with AGM(Absorbent Glass Mat) technology, high performance plates and electrolyte. The definition of GT is coming from General purpose. Therefore, this range product has possessed various applications for common power backup system.

Applications
• Alarm System
• Cable Television
• Communication Equipment
• Control Equipment
• Security System
• Emergency Lighting System

• Medical Equipment
• UPS
• Power Tool
• Emergency Power System
• Stand-by Electric Power Control System

General Features
• Sealed and maintenance free operation.
• Non-Spillable construction design.
• ABS containers and covers (UL94HB, UL94V-0) optional.
• Safety valve installation for explosion proof.
• High quality and high reliability.
• Exceptional deep discharge recovery performance.
• Low self discharge characteristic.
• Flexibility design for multiple install positions.

Construction
• Component ......Raw material
• Positive ..........Lead dioxide
• Negative ..........Lead
• Container ..........ABS
• Cover ..........ABS
• Sealant ..........Epoxy Resin
• Safety valve .....EPDR
• Terminal ........Copper
• Separator ..........Fiber glass
• Electrolyte ......Sulfuric acid

Standard Terminal Dimensions
(Optional terminal please check terminal information page)
